## COUNTRY UNDER LEVEL 5 RESTRICTIONS

There is a Government Advisory in operation against all non-essential international travel

## EXTRA SHORT-TERM MEASURES ON INTERNATIONAL TRAVEL.

- Visa-free travel to Ireland for nationals of South Africa and all countries in South America has been suspended
- Temporarily ceased accepting new visa/preclearance applications globally (with limited exemptions)

## NATIONAL FRAMEWORK FOR LIVING WITH COVID-19

The plan sets out 5 levels that correspond to the severity of COVID-19 in a location. Different levels can be in place in different locations in the country.

Every county in Ireland is at Level 5 until 5 April 2021.

# Current Situation in Ireland

# National Framework for living with COVID-19

More detailed information is available at [gov.ie/COVID19](https://www.gov.ie/COVID19)

	Very low rate of COVID-19 infections Low R-Number			Very high rate of COVID-19 infections High R-Number	
	Level 1	Level 2	Level 3	Level 4	Level 5
Social & Family Gatherings	Max: 10 from 3 other households	Max: 6 from 3 other households	Max: 6 from 1 other household	No visitors	No visitors

# Entering Ireland from abroad

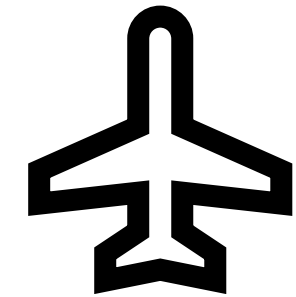

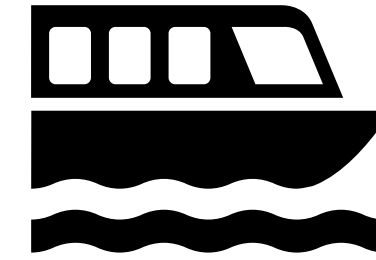

## COMPLETE A COVID-19 PASSENGER LOCATOR FORM

- you must fill in a form before you arrive in Ireland called the COVID-19 Passenger Locator Form.
- Failure to do so is an offence.

## NEGATIVE TEST

- Required to have a negative / 'not detected' result from a pre-departure COVID-19 RT-PCR test.
- Before boarding their airplane or ferry.

If you have queries regarding travel to Ireland in the context of COVID-19, our Emergency Travel Advice Line number is +353 (0)1 613 1700.

# Quarantine Requirements

- Introduced for all arrivals from 4 February 2021
- 14-day quarantine period must be undertaken at the address specified on the Passenger Locator Form
- You must quarantine for 14 days at the place of residence on your Passenger Locator Form. You can stop quarantining once you get a negative PCR test, taken no less than 5 days after arrival

Please note that hiring companies are still asking employees to self-quarantine for 14 days even if a PCR has been taken after arrival.

Persons who started their journey in South Africa or Brazil must complete the full 14 days of quarantine, regardless of whether a negative test result has been received.

# Working in Ireland

A second  
language is a  
competitive  
advantage

# Market Situation

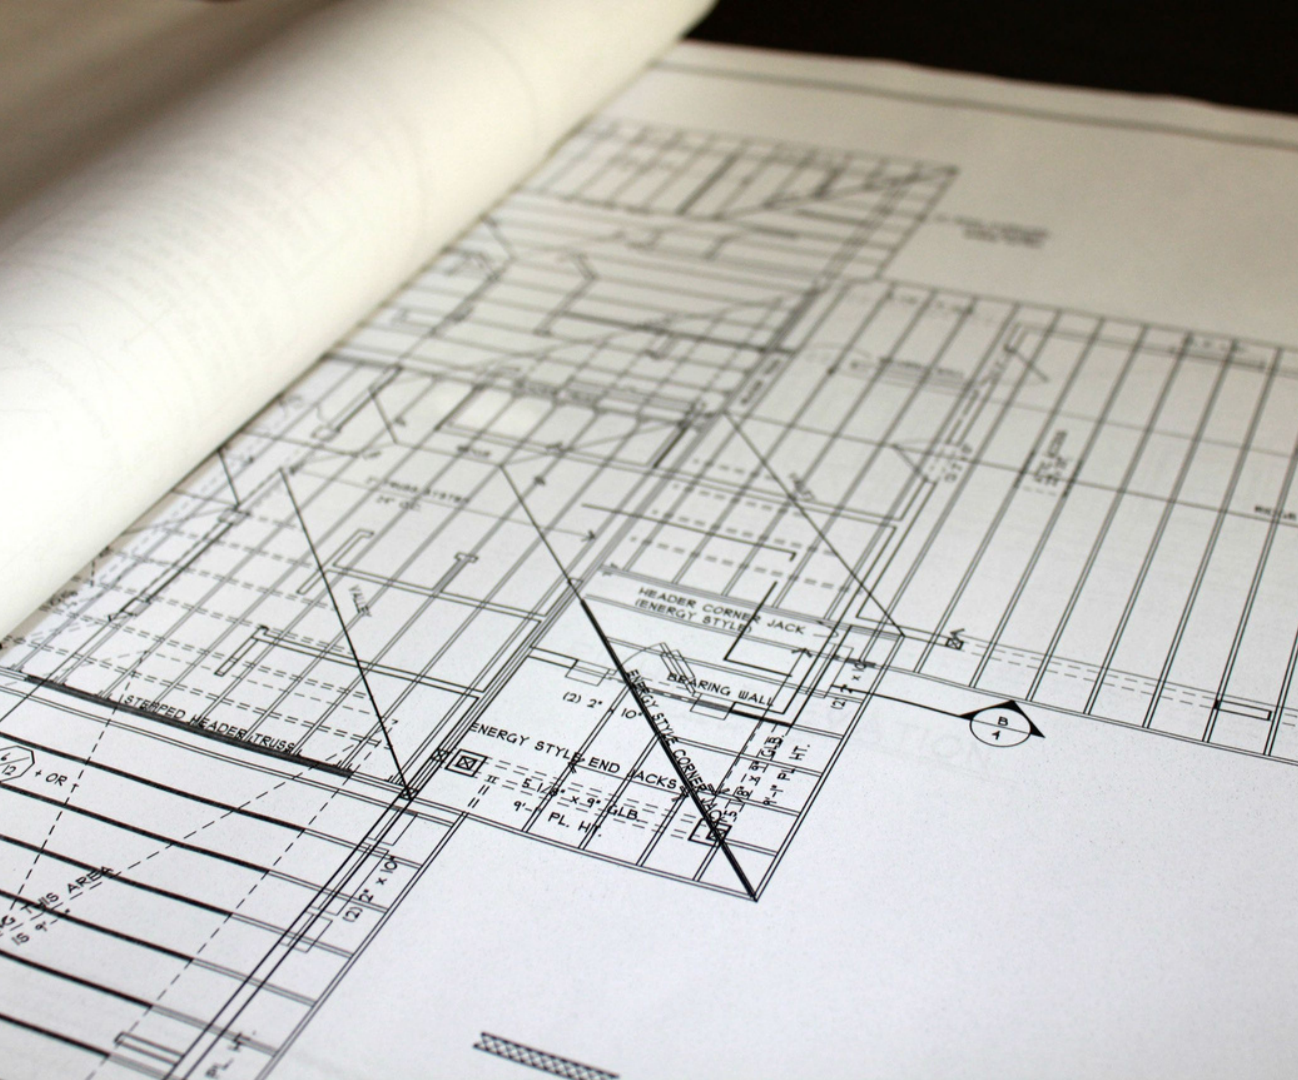

- At the height of the lockdown, around one fifth of the workforce could not work and a large share had still not resumed work in October
- Government's income support schemes is set to cushion the labour market shock
- Multilingual jobs are still on high demand in Ireland
- There has been a shift on the jobs in hospitality and tourism

# NEW Trends and Opportunities

## ENGINEERING AND SCIENCE

EazyCity

# Engineering and Science

## Biologics Processing and Testing

Experience with Immunoassay and Bioassay methods is highly sought after

## Biopharmaceuticals

Now almost all investment has been within Biopharmaceuticals and there is certainly a shortage in talent

more companies are looking at attracting talent from overseas to bridge this gap

## Clinical Trials

- Significant growth in the past 12 months
- There is a talent shortage in Ireland
- These hubs also have language requirements

EazyCity

Companies are very open to relocating talent and has a specific function to facilitate this move for their employees.

# Closing Remarks

EazyCity

## **Remote and onsite work**

Travel is not recommended as it yet. As a result, many companies are hiring to start working remotely and with the idea to join the company in the office later in the year (or as Covid-19 will allow).

## **The labour market in Ireland is still active**

However, many other companies are still relocating people to Ireland at the moment. It is important to check on a job basis what are the conditions.

## **Information for travelling**

For travelling to Ireland information, we highly recommend you to please visit the official Government's site for this purpose  
<https://www.gov.ie/en/campaigns/75d92-covid-19-travel-advice/>

## **PCR**

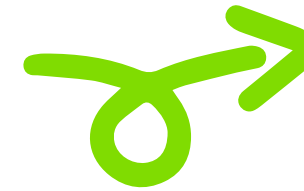

Please note as today 07/02/2021 it is necessary to be in the possession of a negative test when arriving to Ireland (ferry or plane) and quarantine for 2 weeks.

### **New trends in the labour market**

High increase on demand for Engineering and Science roles in Ireland as they cannot be filled by local work force.

### **Shift in the market**

There has been a switch in the market toward other sectors that recruit employees with a second European language such: sales, customer service, admin, IT, science and finance.

### **Jobs with languages**

First time jobs abroad for non-native speakers in hospitality and tourism industries are now not available as result of Covid-19 and current restrictions.

### **Ask for an employee referral!**

Connections are still key in the new virtual world.
